

Top AI prompts for Event Organisers

Do you want to start using Artificial Intelligence (AI) in your role but don't know where to start and how it can benefit you? AI prompting is giving specific instructions or questions to an AI to get relevant and accurate responses. It helps guide the AI to understand what you need and respond appropriately.

The CREATE formula is a great structured approach for crafting effective AI prompts to get the outcome you want, but in a simple way.

- C**haracter: Define the persona or role the AI should assume.
- R**equest: Clearly state the task or question.
- E**xamples: Provide sample inputs and desired outputs.
- A**djustments: Specify modifications or constraints.
- T**ype of output: Indicate the format and detail level of the response.
- E**xtras: Include additional context or instructions to refine the output.

Example:

(C) Assume you are an experienced Event Organiser in a leading events company. **(R)** Provide strategic advice on how to enhance our event planning and execution. **(E)** Specifically, outline steps to ensure a seamless and engaging experience for attendees. **(A)** Focus on strategies that maximise attendee satisfaction and drive event success. **(T)** Provide a detailed strategic plan, including immediate actions and long-term goals. **(E)** Consider current event industry trends, potential challenges, and the impact on attendees and stakeholders in your advice.

Here are fifty ideas for prompts that event organising teams can use to enhance their planning, execution, and overall event success:

Safety and Security

How can we improve our approach to event safety and security?

How can we better manage and mitigate event risks and contingencies?

Budget and Cost Management

How can we better manage our event budget and reduce costs?

How can we improve our approach to event sponsorship and partnerships?

What strategies can we use to better manage event sponsorship deliverables?

How can we improve our approach to event decor and ambiance?

How can we improve our approach to event catering and hospitality?

How can we enhance our approach to event ticket pricing and packages?

Diversity and Inclusion

What strategies can we implement to ensure diversity and inclusion at our events?

What strategies can we use to improve event accessibility for all attendees?

Technology and Innovation

- How can we better utilise technology to enhance the event experience?
- How can we better utilise event apps and digital tools to enhance the experience?
- How can we better leverage event analytics to inform future planning?
- How can we enhance the attendee experience with innovative event formats?
- How can we better leverage attendee data to personalise future events?
