

Business Continuity & Disaster Recovery training from ramsac

Testing and strengthening your organisation's resilience

When an unexpected crisis hits, the strength of your Business Continuity Plan (BCP) or Disaster Recovery (DR) strategy is critical. Are you confident in your plan's ability to protect your organisation from prolonged disruption? At ramsac, we offer **two training sessions** designed to both develop and test your BCP/DR strategies, ensuring your organisation is prepared for anything.

Session 1: BCP/DR Leadership briefing.

Our briefing is designed to educate and challenge senior leadership teams, encouraging them to rethink their assumptions and approach to crisis management. It's not just about having a plan in place; it's about making sure that plan can effectively guide your organisation through any unforeseen event.

Why attend this workshop?

- ✓ **Educate & empower:** Understand the fundamental principles of BCP and DR, gaining insights that will empower your leadership team to make informed decisions when it matters most.
- ✓ **Sanity check assumptions:** We'll help you critically assess your current BCP/DR strategies, identifying any gaps or weaknesses that could hinder your organisation's ability to respond effectively.
- ✓ **Develop & refine plans:** Whether you're starting from scratch or updating an existing plan, this workshop will guide you through the development or refinement process, ensuring your strategies are aligned with best practices and tailored to your specific business needs.
- ✓ **Interactive & engaging:** This isn't just a lecture—it's an interactive session where participants are encouraged to think creatively about crisis response, challenge their assumptions, and collaborate on real-world scenarios.

Session details:

- **Duration:** 1 hour
- **Format:** Available in-person or online
- **Ideal for:** Senior leadership teams looking to develop or enhance their BCP/DR strategies
- **Cost Consideration:** For in-person sessions, travel and accommodation expenses will be recharged at cost.

Session 2: BCP/DR Desktop Exercise.

This session is an invaluable opportunity for your senior leadership team to step into a simulated crisis environment and engage in role play scenarios that mirror the complexities and pressures of actual disasters. The exercise will help you identify strengths, uncover weaknesses, and refine your plan to ensure it's robust, logical, and ready to be executed at a moment's notice.

Why attend this workshop?

- ✓ **Scenario-based learning:** Engage in varied role play scenarios that are tailored to test different aspects of your BCP/DR plan. These scenarios are crafted to simulate real-world crises, allowing your team to experience and respond to potential threats in a controlled environment.
- ✓ **Enhance team preparedness:** The exercise is designed to build confidence and preparedness among your leadership team, ensuring that everyone knows their role and responsibilities during a crisis..
- ✓ **Interactive & immersive:** This isn't a passive workshop; it's an immersive experience where participants are actively involved in decision-making, problem-solving, and crisis management, leading to a deeper understanding of the intricacies of your BCP/DR plan.
- ✓ **Test & refine your plan:** Discover how your plan performs under pressure. This exercise helps you identify any gaps or inconsistencies, providing you with the insights needed to refine your strategy and ensure its foolproof

Session details:

- **Duration:** 2 hours
- **Format:** In-person (recommended)
- **Ideal for:** Senior leadership teams looking to desktop test and enhance their BCP/DR strategies
- **Cost consideration:** For in-person sessions, travel and accommodation expenses will be recharged at cost.

Maximising your organisation's resilience.

Our BCP/DR sessions are delivered by Rob May, our Executive Chairman and a seasoned expert in business continuity and disaster recovery. Rob's wealth of experience and dynamic delivery style ensure that your team will leave the sessions both informed and inspired. For a comprehensive approach to BCP/DR, we recommend starting with our **BCP/DR Briefing** to develop or refine your plan. Then, follow up with the **BCP/DR Desktop Exercise** to test and validate your strategy in a simulated environment.

By combining these sessions, your organisation will not only build a robust continuity plan but also ensure that it's prepared to face the pressures of a real-world crisis.
