

SharePoint consultancy from ramsac

Unlock the full potential of SharePoint with ramsac

At ramsac, we understand the importance of a well-structured, user-friendly intranet for effective communication, collaboration, and document management.

SharePoint can revolutionise your organisation's digital workspace, providing a centralised platform for sharing information, managing documents, and fostering teamwork. However, achieving the full potential of SharePoint requires thoughtful planning, expert configuration, and ongoing support. That's where our SharePoint consultancy services come in.

What is the SharePoint consultancy from ramsac?

Our SharePoint consultancy services are designed to help you achieve a modern, efficient, and user-centric intranet. We focus on three key areas to deliver maximum value from your Microsoft 365 investment:

SharePoint healthcheck:

We perform a detailed analysis of your SharePoint site, providing insights to:

- Improve the user experience and boost employee engagement.
- Redesign document structures for better accessibility and permissions management.
- Identify gaps and make recommendations to optimise functionality.

'Art of the Possible' session:

This workshop explores how a comprehensive SharePoint intranet can meet your unique business needs. Our consultants will:

- Demonstrate SharePoint's features for document storage, sharing, and collaboration.
- Help you envision an intranet that aligns with your goals and exceeds expectations.

SharePoint projects:

From design to deployment, we manage every stage of your SharePoint project. Our expertise includes:

- Building new SharePoint intranets from scratch, tailored to your requirements.
- Transforming and refreshing existing environments to enhance usability.
- Migrating data from legacy systems to SharePoint and ensuring secure permissions structures.
- Delivering all projects with meticulous planning to guarantee success.

How can ramsac help?
